Lowers Tanana Dene Dictionary: Advances in Dene Lexicography, Word Formation, and Alaska Prehistory

James Kari, AAA, Matt C. L. Jetté, and Eliza Jones

Abstract

The present dictionary is an attempt to present the various forms, relationships, and affixes of the Lower Tanana language. It is based on the work of previous investigators and supplemented with new data. The dictionary is arranged in alphabetical order for the reader's convenience. It includes a Table of Headwords (pp. 1-11) and a Table of Contents (pp. 1-11). The dictionary entries are organized into several sections: Section 1: Alphabetical Order, Section 2: Table of Headwords, and Section 3: Table of Contents. The dictionary also includes a Table of Headwords Entries (pp. 1-11) and a Table of Contents Entries (pp. 1-11). The dictionary is intended to be a comprehensive resource for the Lower Tanana language and its related cultures.

Introduction

The Lower Tanana language is spoken by the Lower Tanana people, who are a Native American tribe living in Alaska. The language is part of the Athabaskan family of languages and is closely related to the Dena'ina language. The Lower Tanana language has a rich and diverse vocabulary, with a wide variety of words and expressions. The dictionary is intended to provide a comprehensive overview of the language, including its grammar, syntax, and phonology.
